Brush no wider than 4" in diameter will be accepted at the recycling center. **Hopatcong Residents can only utilize the recycling center. No contractors allowed. Must show proof of residency.**

## **GRASS RECYCLING**

The Borough does not pick up or accept grass clippings either at the curbside or recycling center. Leave your clippings on the lawn when you mow and let Mother Nature do the recycling. Grass clippings provide a natural fertilizer for growing a lawn.

**UNDER NEW JERSEY STATE LAW, GRASS CLIPPINGS CANNOT BE COLLECTED FOR DISPOSAL AT THE LANDFILL**

**Here are some alternatives:**

### **1. GRASS – CUT IT AND LEAVE IT!**

Leaving grass clippings on the lawn: Reduces mowing time by 20% - 25%. Saves the expense of buying lawn bags. Cuts the amount of fertilizer required. What could be easier than cutting your lawn and not bagging clippings anymore? You will save time because you will not have to stop to empty your lawnmower bag. Homeowners that leave clippings on the lawn can actually reduce their total annual mowing time by 20% - 25%. You will also spend less on fertilizer since clippings left on the lawn recycle nutrients, such as nitrogen, back to the soil. You might consider purchasing a mulching/recycling mower or adding a mulching attachment to your present mower. These attachments chop clippings into fine pieces which slip easily down to the soil.

### **2. MULCH CLIPPINGS INTO YOUR GARDEN**

To mulch your grass clippings into your garden, place about an inch of grass clippings directly on the soil around plantings to moderate soil temperature and to reduce weed growth, soil spattering, erosion, compaction, evaporation and runoff. As a precaution, please wait at least 3 weeks and 2 lawn cuttings to utilize grass clippings in your garden after your lawn has been treated with herbicides. Another method of recycling grass clippings into your garden is to mix them directly into the garden soil. Since most **NEW JERSEY** soils are low in organic materials, applying fresh or composted clippings adds valuable organic matter. Grass clippings contain more nitrogen than horse manure.

### **3. CONSIDER BACKYARD COMPOSTING**

Grass clippings are an excellent addition to the backyard compost pile.

## **CHRISTMAS TREE RECYCLING**

The Borough of Hopatcong shall commence curbside collection of Christmas trees in January. As the Christmas trees are composted, the trees must have the stand and ornaments removed and cannot be in plastic or other bags. The trees can also be brought, at no charge, to the Recycling Center during normal operating hours.

## **PLEASE HELP PROTECT LAKE HOPATCONG ONLY USE PHOSPHOROUS FREE FERTILIZERS ON YOUR LAWN** **Solutions to Stormwater Pollution**

### **Limit the use of fertilizers and pesticides**

Do a soil test to see if you need fertilizer. Testing kits are available at nurseries.

Do not apply fertilizers if heavy rain is predicted.

Look into alternatives for pesticides.

Maintain a small lawn and keep the rest of your property in a natural state with trees and native vegetation.

### **Dispose of yard waste properly**

Keep leaves and grass out of storm drains.

Follow Hopatcong's yard waste collection rules.

Cut It and Leave It. Use a mulching lawn mower that recycles grass clippings into the lawn.

### **Properly Use and Dispose of Hazardous Products**

Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze and paints.

Recycle used motor oils.

Contact the DPW office for locations of hazardous waste disposal facilities.

### **Keep Pollution Out of Storm Drains**

Do not pour hazardous products down a storm drain because storm drains are usually connected to local water bodies and the water is not treated.

Do not let sewage, gray water or other wastes flow into a stormwater system.

### **Clean Up After Your Pet**

The Borough has adopted and enforces local pet waste rules.

Pet owners and keepers must pick up and properly dispose of pet waste dropped on public or other people's property.

Never discard pet waste in a storm drain.

Use newspapers, bags and pooper scoopers to pick up wastes.

Dispose of the wrapped pet waste in the trash or unwrapped in a toilet.

### **Don't Feed Wildlife**

Do not feed the wildlife such as **DEER, DUCKS, and GEESE**.

The Borough has adopted an ordinance prohibiting wildlife feeding.

### **Don't Litter**

Place litter in trash receptacles.

Recycle. Recycle. Recycle.

Participate in community cleanups.
